

## APPAREL WAX - 001B2 [APPAREL MUSIC]

"Apparel Wax", a new concept from the 7-years-in-the-game-and-still-going-strong Apparel Music is a shadowy release, masterminded by "ghost" artists; who will be pulling the label strings from behind the scenes from now on. Such a covert offering doesn't deserve a muffled reception, though. Jazzy, electrifying and deep the B2 on this will crescendo up your spinal chord and co-exist in the tingly part of your brain stem - in a nice way though. Brush the dust from the old books as you walk through the deserted room, these volumes haven't been touched by human hand for years. Each of the book spines, Fantasia like and animated, sway with the rhythm of the bass drum. A profound experience.
